

E-Commerce Driver Facing CCTV

Dear Colleagues

Last week GMB London Region released an online survey to ask our member their views upon the proposal by ASDA to install and trial driver facing CCTV within ASDA Home Shopping Vans

This, if rolled out would allow ASDA to record footage showing all movements and actions of a Home Shopping Drivers throughout the duration of their working hours and breaks in the van.

The following is a selection of the survey's results:-

Do you think store management would abuse the CCTV footage and use it to performance manage you?	Would the implementation of a driver facing CCTV make you reconsider the role of a home shopping driver in ASDA?	Do you think GMB should agree to CCTV being used within ASDA Home Shopping Vans or advise ASDA that our members oppose the equipment being used?
86% YES	79% YES	72.5% OPPOSE

The survey results clearly indicate our members OPPOSE the proposed trial and GMB London Region will relay this message on behalf of our members.

If you require representation or need advice, please speak to your local shop steward or visit the GMB Members' Support Centre at www.gmb-asda.com/support
