‘Safer Working Together’

Driver Incidents

Dear Colleagues,

We want to ensure that all of our members can come to work and remain safe. In order to do this and ensure that we take appropriate action where our members are vulnerable it is vital that we see accurate information about incidents that occur.

The below figures show the Customer Delivery Driver incidents (none RTA related) reported by October 2016, which we discussed at the recent GMB National Health and Safety Forum Meeting.

It is important that we have accurate data which is reflective of incidents involving our drivers, both road and non-road related, so that we can take appropriate action to safeguard our colleagues.
